US Army Corps of Engineers

USACE/FEMA Senior Leaders' Seminar

March 6-7, 2007
Lansdowne, VA

FEMA

Intergovernmental Vision & Expectations Panel & Video Teleconference

US Army Corps of Engineers

FEMA

Panel Focus

Given a large scale disaster incident without warning impacting your area of responsibility, express your expectations of your partners' (local, state, Federal – regional & national) roles in the intergovernmental response. Please feel free to express expectations about things you would like to see happen as well as actions that you don't want to occur. These should be constructive, forward looking observations that help paint the common vision.

US Army Corps of Engineers

Panel Focus (cont.)

FEMA

- Local Government Expectations (IAEM)
  - What are your expectations of State government? Federal government – Regional? Federal government – National?
